wdnr lust file summary.xlsx

Good Morning Sherry,

Sure!

The following is what I have assembled and requested based on publically available data. I don't know if this is a complete summary of WDNR LUST sites within reservation boundaries.

The attached spreadsheet lists:

- 1) 25 "closed" WDNR LUST sites publically listed on the WDNR BRRTS database (tab - closed wdnr sites) .
- 2) 2 "open" WDNR LUST sites publically listed on the WDNR BRRTS database (tab - wdnr open sites) .
- 3) 23 WDNR files requested by the Tribe on May 28<sup>th</sup>, 2015 (tab may 28 2015 wdnr file request).

We have not received any of the files requested on May 28<sup>th</sup> .

Kristen,

We have some information about previously closed out underground storage tanks within the reservation boundary but we are not very confident that we have a record of every leaking underground storage tank that the state has closed/cleaned up under the PECFA fund. Do you have ready access to this information? If so, could you share it with me?
